

Better Foam

- Smoother buffing action when compounding, polishing, finishing, and waxing the newer, harder, scratch-resistant finishes
- Thermally reticulated foam with an open cell structure, which allows air to circulate through the pad, thus reducing heat build-up

Machine Washable

- Glued and heat sealed Velcro attachment
- Machine washable with warm water
- Simply hang to dry

Recessed Back

- Engineered recess allows precision alignment for perfect balance and eliminates the possibility of contact with an exposed backing plate.

More Foam Choices

- Better results are achieved when you find your own combination of pad and polish for a system that works for you. We make it easy for you. Color match the pad with our color matched products. *Ask for more details!*

Better Wool

- Unique steaming and delinting process eliminates pad sling with low fuzzing
- Industry leading pad durability proven to outperform in the toughest buffing conditions
- Designed to allow more surface contact, while giving excellent cutting action and finish

Machine Washable

- Glued and heat sealed Velcro attachment
- Machine washable with warm water
- Simply hang to dry.

Engineered to Perform and Last

- Built for speed but run cool to produce consistently high gloss on today's automotive paint finishes. Fast change Velcro, Spin-On, and Snap-On mounts for quick, easy changing of pads.

More Wool Choices

- Uniquely blended wools and synthetic materials color match the right pad to the color matched buffing product. *Ask for more details!*

BE GREAT! . . . BE DISTINCTIVE!
