3" Lightweight-Portable-Rotary Polisher

3" Lightweight-Portable-Rotary Polisher

- Seven-fold microprocessor electronics with consistent speed control by tachometer generator, soft start, accelerator trigger switch, restart protection after power interruption, overload protection, temperature monitoring, and speed selection
- Spindle lock-positioned to prevent operating error and does not interfere with the grip area.
- High-powered motor: can handle extreme loads
- Quality shut-off carbon brushes: if the carbon brushes wear down, the motor will be automatically switched off and thus protected from damage
- 10' power cord.
- Bail handle
