

BE GREAT! BE DISTINCTIVE!

WATER WIPE BLADES

83402 California type Waterblade

- Silicone, T-style blade
- Flexible blade, firm handle
- Use on paint, glass, and plastic

The unique blade design molds to acute angles and curved shapes to effectively remove more water. The 83402 California type Waterblade removes water quickly, cleanly, and efficiently. The soft design of the blade will mold itself to almost any contour and dries the surface in one pass.

83403 One Pass Waterblade

- Silicone, T-style blade
- Flexible blade and handle
- One pass will dry it

The 83403 One Pass Waterblade is safe on any surface. The soft silicone blade is designed to not retain any abrasive particles ensuring quick and easy drying. Use it to clean and dry windows to streak-free perfection. The super flex handle molds to acute angles and curved shapes.
