

BE GREAT! . . . BE DISTINCTIVE!

2033 POWER CLEAN WHEEL ACID

PRODUCT INFORMATION SHEET

Description: **POWER CLEAN** is a blend of hydrofluoric, phosphoric, and sulfuric acids and several surfactants. **POWER CLEAN** is used to remove rust, brake dust, and dirt and grime from aluminum rims and factory chrome wheels. **POWER CLEAN** is also used to brighten aluminum at truck wash facilities. Pink color.

▪ **Features:**

- Multiple acids and surfactants
- Fast acting and removes brake dust and road film
- Concentrated formulation

▪ **Benefits:**

- Cleans and brightens in one easy step
- No heavy scrubbing necessary
- Very economical per use cost

▪ **Use for:**

- Aluminum and chrome wheels, chrome wheel covers, and wire wheels
- Unsurpassed cleaning of brake dust
- Aluminum brightening at truck wash facilities

▪ **How to use:**

- NOTE: This product will cause irreparable eye and skin damage. Read the product label thoroughly before using. Consult MSDS for complete safety information before using. Always wear protective gloves, apron, and goggles when using this product.
- Ready to use or can be diluted up to 1:4 with water
- Apply this product to wheels that are cool to the touch
- Test a small, inconspicuous area of the wheel to ensure compatibility
- Doing one wheel at a time, spray product directly on wheel
- Allow to dwell for no more than one minute. Scrubbing may be necessary on stubborn areas.
- Rinse wheel thoroughly with hard stream of water

▪ **Tech Tip:**

This product cleans by etching wheel's metal surface. Frequent applications may damage the surface.
