environmentally
responsible
products

- **Features:**
 - Hybrid blend of polysilazanes and cross-linking polymers
 - Fluorosurfactant additives
 - Advanced nano technology
- **Benefits:**
 - Protects against weather, corrosion and pollutants
 - Highly reflective long-lasting shine and protection
 - Instantly repels pollutants or enables their easy removal
 - Chemically insoluble after 24 hours
- **Use for:**
 - New car prep for enhanced CSI
 - Warranted protection programs
 - Value added services
- **How to use:**
 - **READ AND UNDERSTAND THE SDS** (Safety Data Sheet) **BEFORE USING**
 - Remember, you are sealing what you see. Remove any paint defects, scratches, swirls before applying. Wash and clay the surface.
 - Clean the surface with our 3241 Prep Spray to ensure a clean surface
 - Ensure surface is cool to the touch and out of direct sunlight
 - Using the applicator pad, apply a small amount of product to the applicator
 - Work the coating into the surface using a side-to-side hand motion overlapping each pass.
 - Remove hazed residue with a clean microfiber cloth
 - We recommend a second coat (one hour apart) using a cross application method to ensure entire surface coverage.
 - For ultimate protection, allow to set 24 hours before washing.
