

BE GREAT! BE DISTINCTIVE!

3929 SOUND GUARD

Premium – Solvent Based
PRODUCT INFORMATION SHEET

Description: **3929 SOUND GUARD** is a VOC compliant coating for protection of the underside of automotive vehicles, trailers, bus bodies, etc. Our **3929 SOUND GUARD** provides a tough, pliable “rubberized” coating that resists abrasion and provides protection against corrosion caused by moisture, salt and alkalis. Thicker coatings of **3929 SOUND GUARD** greatly enhance sound deadening and vibration dampening on metal surfaces.

products

- **Features:**
 - Formulated with special corrosion preventing additives
 - Creates a tough, flexible surface
 - Fast drying, paintable, chip resistant coating
- **Benefits:**
 - Stops rust and corrosion
 - Provide long-term protection from salt, moisture and air
 - Long term weather protection and sound deadening
- **Use for:**
 - New car prep
 - Used car reconditioning
 - Industrial applications
- **How to use:**
 - Consult MSDS for complete safety information before using.
 - Ensure vehicle is clean and dry before applying product.
 - Apply product with spray gun designed for undercoating.
 - Apply product to all exposed sheet metal, body floor supports, wheel housings, gravel shields, inner boxed sections, brake & gas lines, wheel well & lip areas.
 - DO NOT APPLY PRODUCT to any part of drive train, exhaust system, brake pads or rotors.
- **Tech Tip:** Dry time of **SOUND GUARD** will be affected by application thickness, ambient temperature, air flow and relative humidity.
