

BE GREAT! . . . BE DISTINCTIVE!

4027 VISTA

PRODUCT INFORMATION SHEET

Description: **VISTA** is a thin film that coats automotive glass and mirrors with an invisible, water-repellant barrier. **VISTA** enhances visibility during wet-weather driving by reducing the surface tension of water, allowing the water to bead and dissipate from the windshield by the air-flow. **VISTA** forms an easy-clean barrier to snow, ice, bird droppings and bugs.

▪ **Features:**

- Multi-blend high-grade polymers
- Transparent, ultra thin barrier coating
- Long lasting formulation

▪ **Benefits:**

- Causes rain to bead up and roll right off
- Improves vision in the rain.
- Makes it easier to clear ice, snow, and even dirt and bugs.

▪ **Use for:**

- New car prep
- Used car reconditioning
- Big truck detailing

▪ **How to use:**

- Consult MSDS for complete safety information before using.
- Avoid prolonged or repeated skin contact.
- Use of gloves is recommended when using this product.
- Ensure surface is cool to the touch
- Shake well before using. Slight product separation is expected.
- Using a lint-free applicator pad, apply a small amount of **VISTA** directly onto the surface to be treated.
- Apply product to entire glass surface avoiding painted surfaces.
- Do not allow product to air dry.
- Using a clean soft cloth, buff to mirror finish while still wet.

- **Tech Tip:** Once applied, **VISTA** can be reapplied as needed. Cleaning glass with ordinary glass cleaners will not affect product durability.
