4060 PROTECT-IT

Liquid Spray Mask

PRODUCT INFORMATION SHEET

Description: **PROTECT-IT** is a sprayable, protective liquid that dries to a film resistant to paint overspray, rustproofing, and undercoating. **PROTECT-IT** is safe on all OE and aftermarket paint finishes. **PROTECT-IT** dissolves easily with water for a quick and clean removal.

products

- **Features:**
 - Easy to apply, easy to remove
 - Dries to a firm protective coating
 - Ready-to-use formulation
- **Benefits:**
 - Rinses quickly with just water
 - Protects from overspray
 - No messy mixing required
- **Use for:**
 - Protecting from paint overspray
 - Use to protect painted surfaces during undercoating application
 - Paint booth protective covering.
- **How to use:**
 - Consult MSDS for complete safety information before using
 - **PROTECT-IT** is applied best with a gravity feed hand held gun. A conventional siphon gun or undercoat gun can also be used.
 - Apply **PROTECT-IT** as a continuous coating with no voids on the surface to be protected.
 - **PROTECT-IT** should be dry before subjecting to paint over spray. Air movement and/or heat will speed drying time. Typical dry time is 15 – 20 minutes.
 - Mask adjoining areas around panels to be painted with 18" paper. This prevents solid coats of paint from sealing **PROTECT-IT** onto the car. (**PROTECT-IT** is designed to protect against over spray, not solid coats of paint.)
 - To remove, simply loosen film with water. (Warm works quicker.) Wash the vehicle using a wash mitt to ensure all traces are removed.
- **Tech Tip:**
 - **PROTECT-IT** may be applied to any non-porous surface such as paint, plastic, glass and aluminum including vinyl tops (not cloth), wheels and tires, wheel wells, engine compartments, and engines (do not let engines get hot with coating on).
