

## Metal Cleaner and Polish

**Description:** *REFLECTIONS* like a mirror. *REFLECTIONS* Metal Polish cleans and polishes aluminum, chrome, brass, stainless steel, and other metals to a bright mirror-like reflection.

*REFLECTIONS* removes surface rust, brake-dust, and water spots. *REFLECTIONS* Metal Polish is not abrasive and never scratches your metals.

§ Features:

- Special blend of non-silica cleaners and polymers
- Cutting abrasives which turn into polishing particles
- Multi-silicone enhanced formula

§ Benefits:

- Cleans, polishes and protects in one easy step
- Quickly and easily removes dirt, grime, oxidation and tarnish
- Forms a protective layer that inhibits future rust and oxidation

§ Use for:

- New car prep
- Used car reconditioning
- Big truck detailing

§ How to use:

- Consult MSDS for complete safety information before using.
- Avoid prolonged or repeated skin contact.
- Use of gloves is recommended when using this product.
- Ensure surface is cool to the touch
- Shake well before using. Slight product separation is expected.
- By hand
  - Using an applicator pad, apply a small amount of product directly onto the surface to be cleaned.
  - Rub surface until glaze appears beneath the residue.
  - Using a clean soft cloth, buff to mirror finish while still wet.
- High speed buffer
  - Using an applicator pad, apply a small amount of product directly onto the surface to be cleaned.
  - While the product is wet, buff a 2' x 2' area with a high speed buffer and a polishing pad.
  - Keep the pad flat and buff until product dry.

§ Tech Tip:

§ For the ultimate finish, always clean with the grain of the metal. Polishing your metal cross grain will leave scratches and a hazy look on your finished project.
