CERAMIC KITS

SCAN THE QR CODES TO VIEW THESE PRODUCTS ON OUR WEBSITE

Not all ceramic products are created equal. Our professional ceramic kits contain a hybrid blend of polysilazanes that cross-link and chemically bond to the surface. This provides wear resistance and a non-stick protective barrier that creates an immense amount of surface tension & protection to keep the surface looking its best for years.

- Easy Application
- Fully Cures in 12 Hours
- Durable for Years
- VOC Exempt
- Hydrophobic
- Chemically Insoluble Once Fully Cured
- Increases Gloss

TECH TIP:

When using ceramics, it's important the car is properly prepped before sealing the surface, so as to not seal in any imperfections. Use these products to help get you to a perfect prep.

#32401

PREMIUM PAINT CERAMIC COATING KIT PRODUCT #32401

- High surface tension causes extreme hydrophobics
- 9H hardness that cures in 12 hours
- Great addition on top of PPF

#32431

CERAMIC TRIM COATING KIT PRODUCT #32431

- Restores & rejuvenates faded plastic, rubber and vinyl trim
- Once applied the coating will last for years
- No more black faded trim that comes off during a wash

#32441

CERAMIC GLASS COATING KIT PRODUCT #32441

- Water beads and rolls right off, creating better visibility
- Water, ice, snow & bug removal is much easier
- Super hydrophobic

THE QUICK AND DIRTY (...OR SHOULD WE SAY CLEAN)

GETTING YOUR CAR CLEAN IN 5 STEPS WITH **DISTINCTIVE** **DETAILS®** TOP SELLING PRODUCTS

1. WHEELS & TIRES

Although we typically like to wash from high to low, the one exception are the tires & wheels. Once the wheels are cool to the touch, we start the wash here because they are typically the dirtiest part of the vehicle and we don't want any splashing dirt & brake dust back onto a freshly washed car.

We carry all of the necessary products to make your tires & wheels look their best. Remember to keep these accessories separate so the tire accessories don't get cross-contaminated with your paint accessories!

OUR TOP SELLER : #2031 WIRE WHEEL CLEANER

2. WASH

Distinctive Details® has highly concentrated soaps, as well as wash & waxes formulated to lift and remove dirt and leave your car film-free. Due to these very concentrated formulas, our customers enjoy a low cost per use. Remember, using a dishwashing soap or detergent that hasn't been formulated for cars can strip the wax and promote surface oxidation, leading to a loss of gloss and shine.

OUR TOP SELLER: #1002 WASH 'N WAX

3. PREP

This step can sometimes be time consuming, but is KEY to ensure nothing gets sealed in that shouldn't be there. You will remove surface contaminants such as fallout, oxidation and bugs. This product has quickly become the top selling prep product because of it's diversity, certainly not because of it's smell.

OUR TOP SELLER FOR FALLOUT: #4051 D-PREP

4. POLISH & PROTECT

This step will give you that deep gloss and brilliant shine you're looking for. COMPOUNDING is the initial step that helps to remove the microscopic hills and valleys in the clear coat. POLISHING then helps to create that ultimate high-gloss shine by refining any small scratches and webbing in the clear coat. Finally, PROTECTING helps to preserve the paint finish from the elements and locks in that layer of brilliant shine! Our newest technology helps to take the guesswork out of this step and always delivers a consistent end result. Whether Ferrari or Ford, this technology has become well-loved in all detailing circles.

OUR TOP SELLING POLISH: #3225 TOP GLOSS™

OUR TOP SELLING PROTECTANT: #32401 PREMIUM PAINT CERAMIC COATING KIT

5. MAINTAIN

These products extend the life of your vehicles. Vehicles are always under attack whether it's environmental, industrial or UV based exposures. Distinctive Details® has easy spray-on, wipe-off products that will quickly become your best friend and will be a quick, easy option for ongoing protection for your car's finish!

OUR TOP SELLER: #3512 FINAL TOUCH

MANUFACTURING DISTINCTIVE PROFESSIONAL AUTOMOTIVE AND RECONDITIONING PRODUCTS FOR OVER 27 YEARS.

With over 100 years of combined experience in the automotive aftermarket, we've created one of the most expansive and quality driven reconditioning product lines in the nation. Passionate about offering our customers unparalleled service, our US plant formulates and manufactures to meet both customer needs and market trends.

What sets us apart from other companies is our hybrid Just-In-Time manufacturing which allows more flexibility, along with being quick and responsive to your specific needs. Used and loved by the professional detailer for years and sold exclusively through our network of dedicated and knowledgeable distributors & dealerships, we are excited about expanding our line of outstanding detail products and chemical solutions.

MADE IN THE USA

BUILD YOUR BRAND. GROW WITH US.

Our Private Label Program makes it easy to build and grow your own professional product line without the high minimums traditionally associated with private label manufacturing. With some of the lowest minimum requirements in the industry, you can start small, expand as your business grows, and add products along the way.

FAQS

- Q:** WHERE CAN I FIND PRODUCT SDS SHEETS?
A: Our SDS sheets can be found on our website at the bottom of each product page. Click "Download SDS Sheet" to open and save your copy.
- Q:** I LOVE YOUR PRODUCTS, WHERE CAN I FIND THEM?
A: We have knowledgeable distributors placed across North America, please call us and we can help find a distributor for you.
- Q:** WHERE ARE YOU LOCATED?
A: We are proud to say that we are a USA manufacturer. We manufacture our products in Ohio.
